Education

BTECH - COMPUTER SCIENCE

Rajiv Gandhi Institute of Technology | 2019 - 2023

CGPA - 8.35

Projects

Symphony Pie Music visualizer

May 2021 - May 2021

Symphony Pie is an audio visualiser built using Python. It's a simple web app that takes input as a music (mp3) then outputs a video containing the music with really nice visualisation.

Puzzle website using Svelte App

Feb 2021 - Mar 2021

Project was made for JavaScript puzzle competition.

React Projects

Apr 2021 - Apr 2021

Todo App, Weather App, Calculator App using Reactjs

Personal Profile

I'm a computer science b-tech student with a focus on web development. I'm hardworking, diligent, and dedicated—all qualities I put forward in everything I do.
